## eBay Organic Results API

eBay search main results are called organic results. Some results are simple and straightforward. Others include rich data like reviews, condition, shipping and other special snippets. SerpApi is able to scrape, extract, and make sense of both simple and more complex organic results.

#### Organic results overview

When SerpApi encounters organic results, we add them to our JSON output as the array `organic_results`. For each organic result, we are able to extract its `title`, `subtitle`, `link`, `condition`, `price`, `shipping`, `seller`, `thumbnail` and more.

Example results: `sold_date` and `unsold_date`

For searches with `show_only` set to "Complete" or "Sold", the organic results may include items that have either a `sold_date` (if the item was sold) or an `unsold_date` (the auction end date, provided the item was not sold).
